

November 20, 2009

Dear Tewksbury Township Faculty,

Thank you for your invitation. The role of the Board of Education and its committees is to set goals and work with the administration to monitor the progress toward those goals. Therefore, the Curriculum Committee's meeting directly with the staff would be inappropriate. Any feedback on the curriculum and related practices should be made directly to the administration. In addition, faculty members are invited to Board and Curriculum Committee meetings, and members regularly have made valuable contributions to those discussions.

If you would like us to schedule our Curriculum Committee meetings earlier in the day so that more of the faculty can attend, we would consider doing so occasionally. However, we must be sure to accommodate our committee members' schedules, and must retain our commitment to meeting in public.

The Curriculum Committee and the entire Board of Education is proud of your progress toward this year's curricular goals, and we look forward to continuing to work with you and the administration to give our students an outstanding education.

Sincerely,

A handwritten signature in cursive script that reads "John Santoro".

John Santoro  
Curriculum Committee Chair
